I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: My HRT has been a god-send to me. Not only do I get my compounded prescriptions from out of state but the testing is also done out of state by the same group. Continuity is important to my therapy & to limit out of state prescriptions would also limit my ability to have all my testing that is in relation to my hormones done. To have hormones in balance eliminates a multitude of symptoms & prevents a number of diseases. Please do not allow this memorandum to be passed!
